INTRODUCTION

Agentic engineer and orchestrator of agents — ships **MCP servers, sub-agents, and agent skills** to production. Building at the intersection of **AI, cultural technology, and women's health**, with a minimalist's bias for removing friction so the work that remains can compound.

Recruited by Claude itself onto the Anthropic Partner Network track — empirical proof that an open-source portfolio and a body of writing can surface a candidate to AI sourcer agents before any recruiter sees the file.

EXPERIENCE

AI Agent Architect

Engram · May 2026 — Present

Recruited by Claude itself onto the Anthropic Partner Network track — empirical proof that an open-source portfolio surfaces to AI sourcer agents before recruiters see the file.

AI Instructor & Mentor

TechNest Community · Apr 2026 — Present

Sole instructor on TechNest's first AI-specialised mentorship track · 12-week prompt-first curriculum · students ship portfolio-grade AI apps by week 8 on a **95.7%-solo** platform with an in-course RAG assistant on Cloudflare Workers (Llama 3.1 8B + Vectorize + KV).

Founding Principal Engineer, Activation, Execution & AI Systems

GAVIGO Inc. · Oct 2025 — Present

Promoted Core Engineer → Founding Principal Engineer across three contract iterations · owns the Intelligence Layer end-to-end (the GAVIGO IRE Activation platform) · **p50 < 1 ms activation latency** · **84.6% warm-pool hit rate** · cross-cloud AWS → GCP GKE migration in a 30-minute zero-downtime cutover · **98% solo on 353 commits**.

Senior Full-Stack Engineer & Website Team Lead

She Sharp · Jul 2025 — Present

Recruited directly by founder Dr Mahsa Mohaghegh · NZ charitable trust CC57025 (**2,200+ active members; 8,000+ women supported lifetime**) · **86.6% solo across 10 months** on the new platform · Webflow → Next.js migration preserving 10+ years of legacy content with zero broken inbound links.

Chief Technology Officer

FemTech Weekend · Mar 2025 — Present

Sole technical leader across two platform generations (Next.js Gen-1 → Docusaurus Gen-2 editorial rewrite) · **operates the 2026 Shanghai Summit with 16 confirmed speakers including FemTech-term originator Ida Tin**.

Previously: Founding Junior Full-Stack Engineer at Sanicle (**earned the company its IBM Silver Partner certification + PartnerPlus listing through Chan's solo build** · 350+ commits · 180+ beta users · Nov 2023 — Nov 2024) · ByteDance 青训营 Backend (Jun–Aug 2024) · Lincoln industry placement at CORDE Christchurch · Forward With Her mentor (**programme of 360 mentors / 800 mentees — 7 of Chan's 18 LinkedIn recommendations come from this cohort**) · CopilotKit OSS contributor (2 merged PRs in official examples, 24.6k+).

SELECTED OPEN-SOURCE PROJECTS

Tam-Ai-Ti tamaiti.whiri-ai.com/

Māori-cultural AI financial-wellness pilot · commissioned solo by Riria (Missy) Te Kanawa

- 351 commits solo · 48 tables / 494 columns / 22 migrations · 3-model OpenAI composition (gpt-4o-mini coach turns + gpt-4o synthesis + gpt-4o-realtime-preview Voice).
- Schema-first te reo Māori** — Maramataka lunar phases and Te Whare Tapa Whā wellness domains live as first-class Drizzle enum types, not UI labels. Prevents the “i18n drift” failure mode where cultural concepts decay into English-only columns.

WHAT I BRING TO A TEAM

- Ship production AI agents that don't fall over.** Multi-agent systems with hard guardrails enforced in code — not just prompts — for compliance and financial steps.
- Keep AI cost and latency predictable.** Prompt caching, model-tier routing, evaluation harnesses with documented failure modes — not hype.
- Multi-tenant SaaS without context bleed.** Scoped sessions per customer, durable error handling, observability.
- Senior judgement on architectural calls.** Discovery-first planning before coding · structured CI output · deterministic code-level guardrails over prompt instructions.
- Multiply team velocity.** Internal CLIs, IDE hooks, and MCP servers that compound across the engineering org.

FRAMEWORKS

- **19-user research cohort sustained 4 months** · 181 bilingual journal entries · 35 voice sessions · 146 AI coach messages · 74 daily check-ins — pre-commercial product, real engagement.

echohook — claude-code-audio-hooks github.com/ChanMeng666/echohook
The “dev productivity tool I built for my team that became popular OSS”

- **Reference implementation of the Claude Agent SDK hooks lifecycle** — PreToolUse · PostToolUse · status line · context-window quota. 26 hook events · 42 releases · 139 tests on triple-platform CI (Linux / macOS / Windows).
- **Cross-tool by design** — single hook system, three IDE surfaces: Claude Code, Cursor, OpenAI Codex.
- Started as an internal noise-fix for long-running background agents; open-sourced after teammates asked for it; now community-adopted across all three IDEs.

ViteX — AI Career Agent www.vitex.org.nz/

Production AI agent · 95% solo · 168 commits over 3 months · Vercel AI SDK + GPT-4o + Typst

- **7-step AI pipeline streaming over SSE** (JD parsing → background parsing → match analysis → resume tailoring → ATS scoring → cover letter → Typst doc generation) · every stage is Zod-validated structured output · disables OpenAI strict-JSON mode on `.optional()` · Zod schemas (real-prod fix captured in commit log).
- **Typst compiles PDFs locally in under 100 ms** across 14 AI-auto-selected templates — no hosted Chromium, no third-party doc-gen API · this very CV’s resume-pipeline dogfood.
- **Three production migrations** (Railway → Cloudflare Workers → DigitalOcean VPS) + a LaTeX → Typst engine swap shipped without service outage · Docker + Traefik + GitHub Actions continuous deploy · Stripe credits ledger + share-token public URLs.

Google News MCP Server github.com/ChanMeng666/server-google-news

Earliest-ecosystem MCP server — shipped 35 days after Anthropic’s Nov 2024 MCP launch

- **Skywork AI featured it as “one of the most elegant, production-ready solutions”** — listed across **15+ MCP catalogs** · PulseMCP “Top Pick” · Glama A-rating · 122 stars · @chanmeng666/google-news-server on npm.
- **Shipped before MCP had a registry** — built own discovery story (PulseMCP submission, Glama submission, npm) which compounded into first-mover index advantage as catalogs came online.

Also open-sourced: [gradient-svg-generator](#) (340+ animated-SVG templates · 273 solo commits · powers every badge in the source README) · [typst-claude-skill](#) (official Typst skill for Claude Code · the engine that typesets this CV) · [SunoStats](#) (industry-first Suno lineage explorer) · [FanFic Lab](#) (7-node LangGraph adaptive agent with self-revising quality loop) · plus [chan-meng-cli](#), [readme-profile-generator](#), [github-readme-suno-cards](#), [github-visitor-counter](#).

VOICE & WRITING

- **Host of 4 Spotify podcasts** — *Decoding the Future* (English · landmark AI papers · LinkedIn newsletter 800+ subs) · *Future Turing* 未来图灵 (Chinese counterpart) · *Praxis and Pages* 知行书话 (humanities, NotebookLM-assisted) · *Beyond Thirty* 不止三十 (women 30s–40s in long-form conversation).
- **Guest + press:** 码农姐妹 on Xiaoyuzhou FM (maths-teacher → full-stack engineer transition) · *FemTech At Work* — *Greater China Ep 21* on Spotify · [THISDAYLIVE](#) (May 2025) · [PulseMCP newsletter](#) · WeChat UN CSW 69 coverage.
- **Minimalism writing:** Douban feature “A Glimpse of My Minimalist Home” — **100,000+ reads · 14,000+ shares · 6,520 likes · 795 bookmarks** (Aug 2024) · two LinkedIn essays on minimalism as daily and digital practice.
- **Music creator:** [@chanmeng666 on Suno](#) — the data engine behind own SunoStats project.

CERTIFICATIONS & TRAINING

Anthropic

- AI Fluency: Framework & Foundations (Aug 2025, JHIY9NPYTR2D)
- Claude Code in Action (Aug 2025)
- Claude Certified Architect — Foundations curriculum completed (on Partner Network track via Engram)

HackerRank

- Software Engineer · Frontend Developer (React) · SQL (Advanced) · Problem Solving (Intermediate)

RECOGNITION

- **UN CSW 69 Speaker** — Beyond Beijing 30 Conference, UN HQ NYC (Mar 2025). Attracted **IBM pilot interest** and a public endorsement from Sierra Leone’s Minister of Gender and Children’s Affairs.
- **Outstanding Mentor Award** — AI Hackathon Festival 2025 · 1 of 14 expert mentors · guided 11 teams / 80+ participants.
- **FemTech Excellence Award** — FemTech China (inaugural FemTech Weekend).
- **UN Women FemTech Hackathon — Outstanding Performer** (Beijing, Mar 2025) · independent-developer recognition for cross-org collaboration with Sanicle and the NGO CSW Forum.
- **Dean’s List Honoree (Top 5%)** — Lincoln University, NZ.

« Not only his technical ability, but the way he turns ambiguous founder-level direction into working systems, measurable proof, and reliable product surfaces. »

— Saba Gecgil · Founder & CEO, GAVIGO Inc.

« Chan is someone you feel genuinely confident working with — she naturally becomes the technical backbone of the team. »

— Lesley Gao · She Sharp design team (May 2026)

EDUCATION

Master of Applied Computing

Lincoln University — New Zealand

Nov 2023 — Dec 2024

Distinction (80%+) · Dean’s List, Top 5%

Bachelor of Geography Science

Jiangsu Normal University — China

Sep 2012 — Jun 2016

Distinction
